

Cristina Bianchi

I simply fell in love with mediation.

Since then, I could not stop learning and practicing what I am still learning, day after day.

After my **Diploma at the Deutsche Schule** in Milan, where I've been taught that people don't speak all the same language and a **cum laude graduation in law**, I joined the **Milan Bar Association**, always noticing and remembering that the world is made of different points of view.

I thereafter specialized in Intellectual Property and became also **Trademark Attorney**.

Something was missing in my life and as I met the mediation, I simply found out what I was looking for. A way to help people to better understand each other.

I am passionate about listening to people's stories and feelings.

I had the chance and luck to meet incredible and valuable teachers and masters, particularly at the Chamber of Arbitration in Milan.

I currently am a Mediator at **Chamber of Arbitration of Milan** and at **ARERA Italian Regulatory Authority for Energy, Networks and Environment**.

My case experience in mediation is in **Intellectual Property and civil matters**, such as rights in rem, renting, financial contracts, for example.

I speak Italian, **German, English** and understand people speaking **French**, too.

I look forward to continue listening to people and help them understand their needs in order to achieve the most effective solution during negotiations.
